Claim 14 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

There is no antecedent for the "snap fastener".

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-5, 7, 13, & 14 are rejected under 35 U.S.C. 102(b) as being anticipated by Huot et al.

Huot shows a tool box including two shells pivotally connected and securable with a snap fastener; the shells having reinforcement plates 84, 85 forming pockets to pivotally mount shaft 14, having tool holders.

Claims 6 & 8-12 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
